Alpine, Texas 79831

NATURAL GAS NOTICE
June 30, 2006

TO: SUL ROSS STATE UNIVERSITY FACULTY, STAFF AND STUDENTS

If you smell the odor of natural gas outdoors or indoors, contact the University Police Department or Southwest Texas Municipal Gas Corporation IMMEDIATELY at:

University Police Department: 432-837-8100
Southwest Municipal Gas Corp: 432-837-3437

There is a Sul Ross State University officer or dispatcher on duty seven days a week, twenty-four hours a day. At Southwest Texas Municipal Gas Corporation there is a dispatcher on duty Monday through Thursday from 7:30-5:30 and on Friday from 7:30-4:30 and a serviceman is on call after hours and on weekends. These departments will respond to natural gas leaks. If it appears that escaping gas has entered a building so that a fire or explosion is imminent, then vacate the building without turning light or other switches on or off, and call "911" from a nearby telephone.

Sul Ross State University maintains your buried or above ground piping beyond the meter. Sul Ross State University also maintains gas piping throughout the building, and all piping and equipment up to and including the appliances.

If any excavation is to occur near the buried piping, the piping should be located in advance and excavated by hand to avoid damage by using powered equipment.

This information is being furnished to you to help you respond to natural gas leaks and natural gas emergencies.
