I. Compliance with Texas Government Code, Section 2102.015: Posting the Internal Audit Plan, Internal Audit Annual Report, and Other Audit information on Internet Website

Texas Government Code Section 2102.015 requires state agencies and higher education institutions to post certain information on their internet websites. The Texas State University System (TSUS) Office of Internal Audit ensures compliance with Section 2102.015 through the following procedures:

- Posting its annual audit and compliance plan to the Office of Internal Audit webpages of the TSUS and components' websites within 30 days after formal approval by the Board of Regents ("the Board"). The Fiscal Year 2022 Audit and Compliance Plan was approved by the Board on August 13, 2021 and has been posted as required.
- Posting this *Internal Audit Annual Report for Fiscal Year 2021* to the Office of Internal Audit webpages of the TSUS and components' websites within 30 days of distributing the report to the Finance & Audit Committee of the Board.
- Including in the quarterly board materials, posted on the TSUS website, a detailed summary of the weaknesses, deficiencies, wrongdoings, or other concerns raised by audit and compliance plan projects and a detailed summary of the actions taken by management to address resultant recommendations.

The TSUS Office of Internal Audit reserves the right to not post information contained in the audit and compliance plan, reports, or this *Internal Audit Annual Report* if the information is exempt from public disclosure under Chapter 552 of the Texas Government Code.

II. Audit and Compliance Plan for Fiscal Year 2021

The TSUS Office of Internal Audit prepares a consolidated audit and compliance plan (“Plan”) for System Administration and its components. The following is a listing of all projects included in the Plan for fiscal year 2021, amended to include the status of the projects as of August 31, 2021, the report titles, report numbers (if applicable), and dates the reports were issued to external oversight entities.

- Served on the Business Services Council.
- Served as ex-officio member of the Human Resources Stakeholders Team.

IV. External Quality Assurance Review (Peer Review)

Texas Government Code 2102 requires periodic external assessments of the audit function for compliance with applicable professional standards. The following excerpt is the most recent independent external validator's statement regarding the TSUS internal audit function, based on criteria outlined in the Institute of Internal Auditors *Quality Assessment Manual for the Internal Audit Activity*. There are three ratings that can be given. The validator rated the TSUS internal audit function with a "Generally Conforms" rating, which is the best rating available.

Texas State University System – 2019

OVERVIEW

As required by the Texas Internal Auditing Act (article 6252-5d, V.A.C.S.) and the Institute of Internal Auditors' (IIA) *International Standards for the Professional Practice of Internal Auditing (IIA Standards)*, a quality assurance review (QAR) was conducted of The Texas State University System (System) internal audit activity. The IIA Standards require that internal audit activities obtain an assessment either through an external review or a self-assessment quality assurance review, with an independent validation.

As an independent reviewer, I was engaged to conduct a validation of the self-assessment that was conducted by the System Office of Audits and Analysis. The primary objective of the validation was to independently verify the assertions made in the System's attached self-assessment report regarding adequate fulfillment of the expectations of the IA activity by the Audit and Finance Committee of the Board of Regents and its conformity to the *IIA Standards*. An additional objective was to provide recommendations that the reviewer deems may be of value to the System IA activity. Matters that might have been reviewed and reported on in an external review, such as an in-depth analysis of best practices, governance, and use of advanced technology, were excluded from the scope of this review.

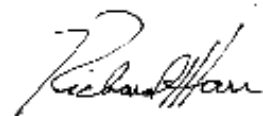

In acting as a validator, I am fully independent of the System and have the necessary knowledge and skills to undertake this engagement. The validation was conducted from November 19 through November 22, 2019. It consisted primarily of a review and testing of the procedures and documented results of the self-assessment conducted by the System's IA review team. It also included a review of a limited sample of various audit workpapers; an evaluation of responses to surveys distributed to System Administration executives, component Presidents and management, and audit staff; and interviews with the audit staff, Finance and Audit Committee Chair of the Board of Regents and the Texas State University System Chancellor.

Texas State University System – 2019

 **OPINION**

Based upon my interviews, workpaper reviews, and a review of the work conducted by the IA review teams, I concur with the conclusion that the internal audit activity at the System Office of Audits and Analysis (OAA) and the four component locations, the Texas State University, Lamar University, Sam Houston State University, and Sul Ross State University, **generally conforms** to the applicable *IIA Standards* and the Texas Internal Auditing Act.

This opinion, representing the best possible evaluation, means that there are in place the relevant structures, policies, and procedures, including the processes by which they are applied, that comply with the *IIA Standards* and the Texas Internal Auditing Act in all material respects. The workpapers documenting the self-assessment conducted by the System's IA review team showed that the review was appropriately documented by the team and the opinion appears to have been objectively developed.

V. Audit and Compliance Plan for Fiscal Year 2022

The TSUS Office of Internal Audit prepares a consolidated audit and compliance plan (“Plan”) for TSUS components and System Administration. 28,925 hours have been budgeted for activities/projects included in the Plan (including travel and administrative time). The TSUS Board of Regents approved the Plan on August 13, 2021.

APPENDIX A: RISK-BASED FUNCTIONAL AREAS.....	4

INTRODUCTION AND PURPOSE

The *Fiscal Year 2022 Audit and Compliance Plan* (“Plan”) documents functional areas the Office of Internal Audit intends to devote resources to during fiscal year 2022. The Plan satisfies statutory responsibilities outlined in Section 2102.008 of the Texas Government Code, the Texas State University System *Rules and Regulations*, and applicable auditing standards. The number of hours budgeted to perform all activities in the Plan totals 22,957.

Plan Categories

The Plan is divided into three different categories:

- **Statutory Audits and Activities:** Projects required by law for all institutions and System Administration.
- **Risk-Based Functional Areas:** Projects allocated amongst the institutions based on risks identified during the annual risk assessment process and subsequently categorized by functional area. The presentation of these projects is different than in prior years: rather than listing the specific projects to be performed at each institution and System Administration, the Plan identifies the functional areas where projects will be performed. See the section entitled “Risk Assessment Process” below for more information.
- **Other Activities:** Projects required by grant agreements or third parties; consulting and advisory services; special projects such as time-sensitive management-requested reviews or investigations; identification and communication of emerging compliance requirements; liaising with external auditors; and other functions designed to assist management in mitigating risks.

Risk Assessment Process

Because of the increase in the number of statutorily-required projects and activities, audit resources available for risk-based projects have diminished. Therefore, it is critical that such projects focus on areas where independent reviews will provide the most value to the Texas State University System as a whole. In order to identify such projects, the Office of Internal Audit uses a two-phase risk assessment process.

The first phase is the annual risk assessment, used to build this Plan. (Texas Government Code 2102.005 requires audit plans to be developed “*utilizing risk assessment techniques.*”) The collective risk assessments performed at the institutions and System Administration included, but were not limited to, the following:

- Soliciting input from the Board of Regents, the Chancellor, Vice-Chancellors, and Component Presidents and management;
- Consulting with oversight entities regarding emerging concerns;
- Considering national trends within higher education;
- Evaluating materiality;
- Assessing the potential impact of negative public scrutiny; and
- Utilizing professional judgment and knowledge gained from prior projects regarding areas of risk.

The risk assessments considered a myriad of risks, including those associated with the impact of COVID-19, fraud, contract management, benefits proportionality, and information technology (including those associated with Title 1, Texas Administrative Code, Chapter 202, *Information Security Standards*). The risk assessments also considered work performed by external auditors, institutional risk appetites, and activities for which assurance or consulting engagements would be most helpful to management.

Upon completion of the annual risk assessment, identified risks were categorized into various functional areas, such as Financial Management, Academics and Instruction, and Outsourced Services. In creating the functional areas, we considered the various organizational structures within the Texas State University System, the Risk Dictionary classifications created by the *Association of College and University Auditors*, and the functional expense classifications promulgated by the *National Association of College and University Business Officers* for financial statement reporting purposes.

Each functional area contains numerous activities, processes, and operations that could be the subject of an audit. (See Appendix A.) Except for compliance reviews (which are typically conducted on a system-wide basis), the various functional areas and the specific projects selected for review in those functional areas vary amongst the institutions and System Administration depending on the level of risk. For example, a project in the Financial Management functional area at Lamar University could involve an audit of accounts payable, while a project in the Financial Management functional area at Sul Ross State University could involve an audit of accounts receivable. There could be no projects (or multiple projects) in the Financial Management functional area at Sam Houston State University.

The second phase (of risk assessment) occurs when audit resources become available to commence a project in a designated functional area. Although the first phase of the risk assessment provides clear indicators of auditable units that would benefit from review, some units are of higher risk than others, and sometimes, risks identified during the annual risk assessment become mitigated as time passes. Therefore, as project planning begins, we conduct additional assessments to pinpoint the activities best suited for review. This approach affords us the flexibility to ensure emerging risks are timely reviewed.

As in prior years, there may be circumstances that require us to devote resources to activities not outlined in the Plan. Per the *Rules and Regulations*, significant changes to the Plan require approval by the Chair of the Finance and Audit Committee. Also, consistent with prior years, the risk assessment identified high risk areas that were not included in the Plan due to finite resources.

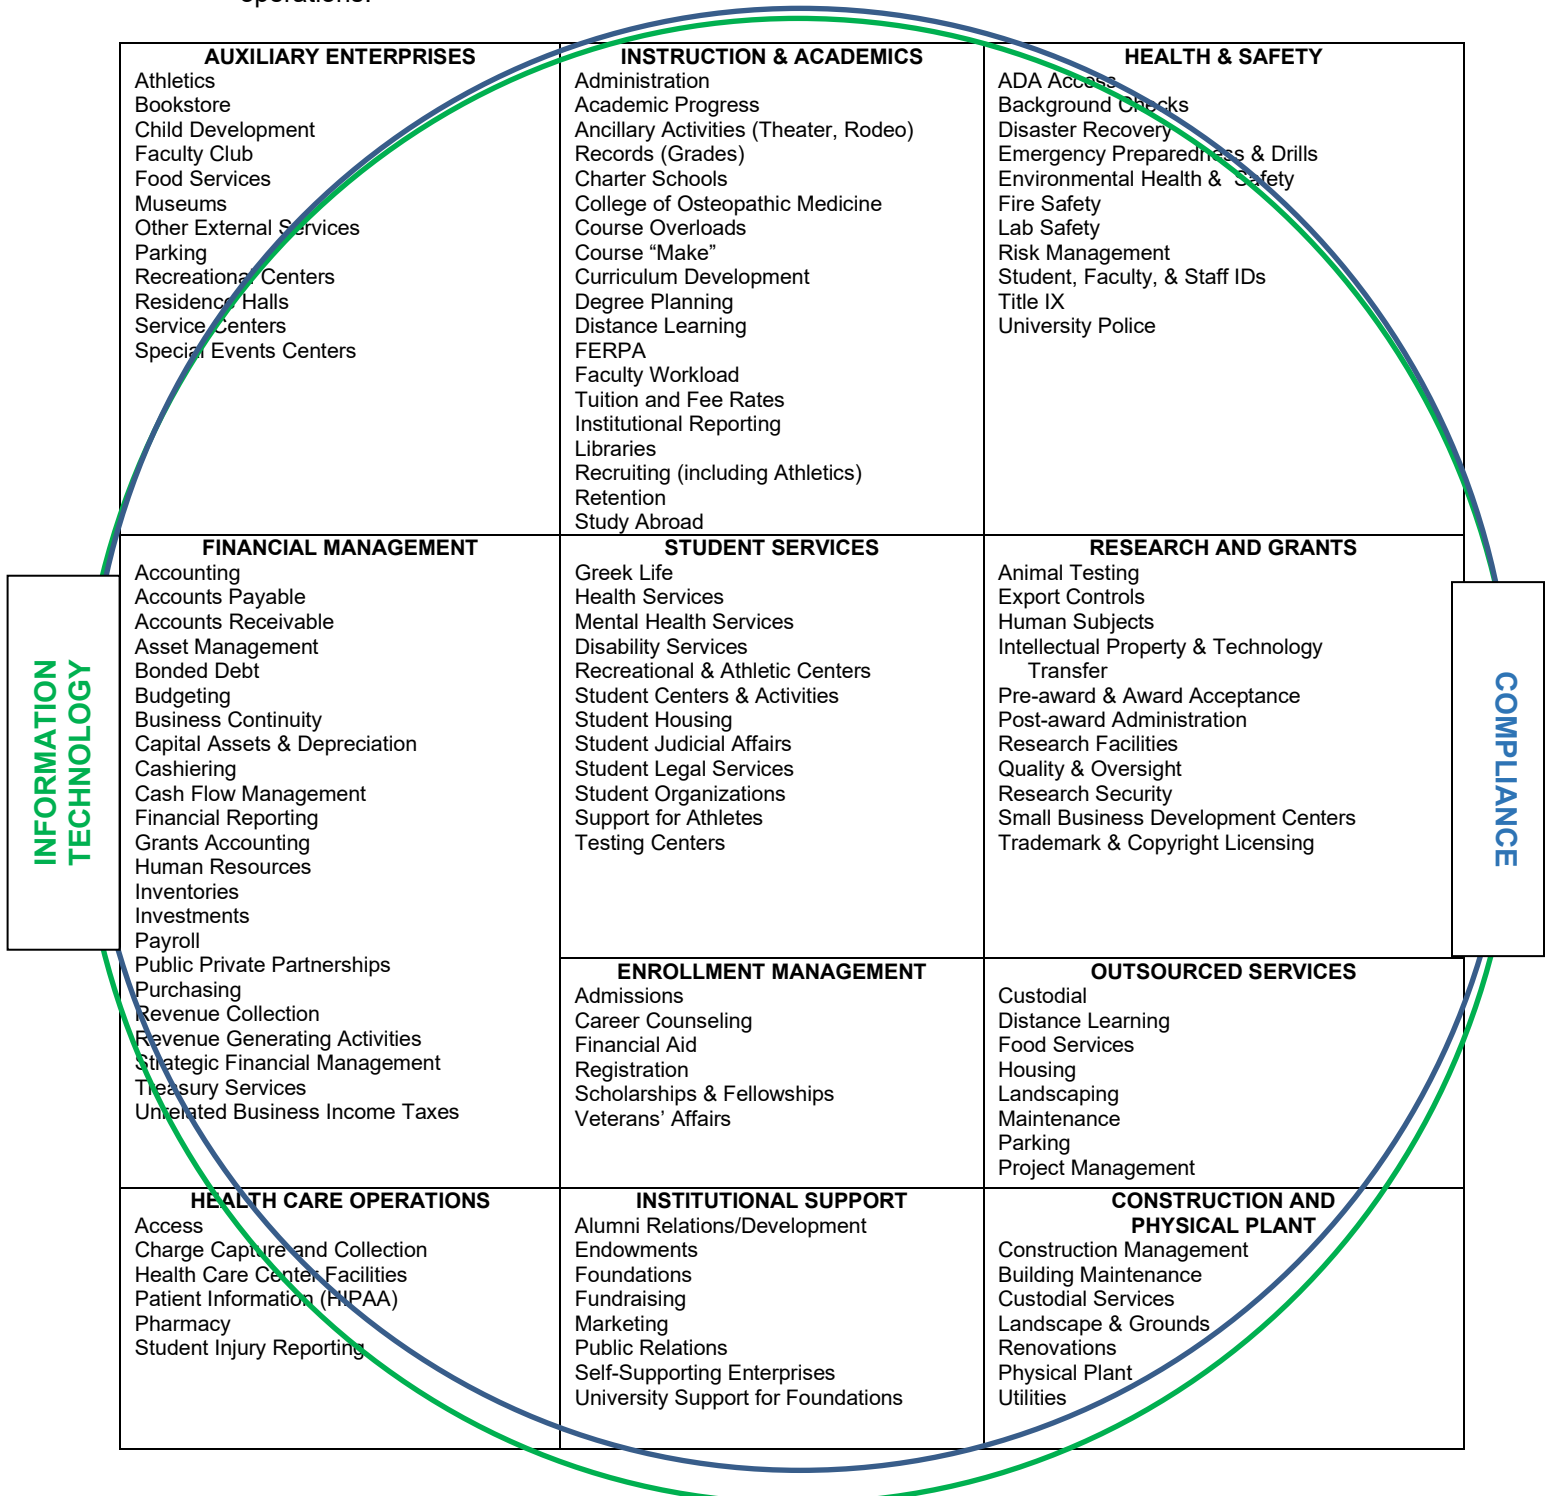

The Plan appears on the following page. Checkmarks, which can represent one or more planned projects, are used to identify the functional areas at individual institutions and System Administration where the Office of Internal Audit plans to devote resources throughout the year.

APPENDIX A: RISK-BASED FUNCTIONAL AREAS

This chart depicts examples of (but not all) subprocesses/activities within each functional area, many of which overlap. These activities represent potential auditable units; however, some activities inherently have higher risks than others. Finite resources preclude audits of every activity listed, including those known to have higher risks. Therefore, the absence of check-marks in the Plan for risk-based audits means that no work is planned in the corresponding functional area(s). Information technology and compliance risks surround all of the functional areas and exist within all operations.

VII. Reporting Suspected Fraud and Abuse

The TSUS has taken the following actions to ensure compliance with requirements of Section 7.09, Fraud Reporting, General Appropriations Act (86th Legislature), Article IX, Page IX-37 and Section 7.09, page IX-38, the General Appropriation Act (87th Legislature):

- The TSUS contracts with EthicsPoint, an internet-based fraud reporting hotline. On the main webpage for TSUS, there is a link entitled [Report Fraud & Abuse](#), which redirects to the EthicsPoint mechanism for reporting suspected fraud, waste or abuse.

The link also appears on each TSUS component's homepage. Further, each component sends periodic email reminders to its employees regarding confidential avenues for reporting concerns about potential waste, fraud, and abuse of resources; the lack of compliance with laws, regulations, and/or University policies and procedures; or violations of the TSUS's Code of Ethics.

Additionally, there is a link to the State Auditor's fraud reporting hotline on the TSUS webpage and each component's webpage.

Lastly, Texas State University has a local hotline that is monitored by the Office of Internal Audit.

- The TSUS Rules and Regulations place specific requirements for employees to report suspected waste, fraud, or abuse and delegates responsibility to the Chief Audit Executive to report such matters to the State Auditor's Office.
- The TSUS is aware of and complies with the requirements of Texas Government Code, Section 321.022, regarding reporting to the State Auditor's Office those situations where a reasonable cause to believe that money received from the state may have been lost, misappropriated, or misused, or that other fraudulent or unlawful conduct has occurred. The TSUS Rules and Regulations explicitly state: "*Texas State University System, through the Chief Audit Executive, will report suspected fraud or unlawful conduct to the State Auditor's Office (SAO) if he or she knows of facts pointing to fraud or unlawful conduct.*" The Office of Internal Audit conducts reviews into complaints regarding potential waste, fraud, or abuse (including complaints forwarded to the TSUS by the State Auditor's Office) and provides a written response summarizing the results of those reviews.
